

How would you describe the person you want to become? What is that person like? What is that person able to do? What kind of relationships does that person have? What will it take for you to grow toward becoming that person?

Why is being in college important to you ?

If I were your best friend, what would I already know about you?

At your retirement dinner, what do you want people to say about you ?

What has been your best experience so far?

What has been your worst experience so far?

How did you determine what majors of interest did or didn't fit well for you?

Have your classes caused you to change how you see the world or actions that you take in the world?

Are you more curious now than when you began higher education?

How would you define freedom? Do you think that higher education has made/Is making you more free? In what ways is it making you less free?

How do you want to live your life? How has college informed that?

How do your current courses relate (or not related) to what is really important in your life?

Looking back, what is one thing that you wish you knew before you started college?

How are you the same as when you began college? How are you different?

What motivates you?

What has been your greatest academic success in school?

What major courses have you really enjoyed? What about those courses made them such good experiences for you?

What accomplishments are you most proud of so far?

Tell me about a significant experience you've had so far at college.

What has been your best experience so far?
